

***“The glory of gardening
Hands in the dirt*”**

Month End Presentation - *April 2022*

Is a teacher only a 'Teacher'??

*Let us hear it from the
newest members of **our family!!***

And there is more to it...

I Am a Teacher!

I am a **counsellor** and **psychologist** to a problem-filled child,
I am a **police officer** that controls a child gone wild.
I am a **travel agent** scheduling our trips for the year,
I am a **confidante** that wipes a crying child's tear.
I am a **banker** collecting money for a ton of different things,
I am a **librarian** showing adventures that a storybook brings.
I am a **custodian** that has to clean certain little messes,
I am a **psychic** that learns to know all that everybody only guesses.
I am a **photographer** keeping pictures of a child's yearly growth,
When a **mother and father** are gone for the day, I become both.
I am a **doctor** that detects when a child is feeling sick,
I am a **politician** that must know the laws and recognize a trick.
I am a **party planner** for holidays to celebrate with all,
I am a **decorator** of a room, filling every wall.
I am a **news reporter** updating on our nation's current events,
I am a **detective** solving small mysteries and ending all suspense.
I am a **clown and comedian** that makes the children laugh,
I am a **dietician** assuring they have lunch or from mine I give them half.
When we seem to stray from values, I become a **preacher**,
But I'm proud to have to be these people because...
I am proud to say, "I am a teacher."
