

STUDENT LED CONFERENCE: PORTFOLIO

STUDENTS TAKE OWNERSHIP OF THEIR LEARNING JOURNEY!

ALEYA'S PORTFOLIO | 2017-2018

Dear Parents,

The **portfolio is a compilation of student's growth** through the year under all investments – social, emotional, physical, cognitive and spiritual. It has evidences of work that makes visible this growth.

The primary purpose of portfolio is to **document student learning** through the year. Students select the items to be included in their portfolio. Their choices define them as learners and what they believe to be important about their learning, what they value and want to make visible. Collecting evidences for this portfolio is a way of saying *"This is who I am and here is what I can do."*

When viewing this compilation of your child's work, please **encourage** them to share what they feel about the work samples as well as reflections or feedbacks received during various moments.

Enjoy this time to **celebrate** the efforts of your child as well as the teachers towards building this compilation through the year.

Regards,

Key Stage 1 Team
